

Better product, **better value**

Our KarEbinR PVC Sheet is designed to be strong, reliable and safe - the same qualities Mountaineers rely on with 'carabiner' rings for rock climbing

Go ahead, climb your mountain with confidence using only the best - KarEbinR

KarEbinR is an innovative brand that focusing on getting high-quality products into the marketplace at a highly attractive price

We greatly care about the customer experience and a long term relationship built on **quality, value** and **trust**

The result is our exclusive high quality PVC sheet

We are confident that you will be happy with our products and services

OUR PRODUCTS ARE ALREADY USED IN MANY ORGANISATIONS

Typical Area Types

RESTAURANTS/FOOD PRODUCTION FACILITIES

Due to the versatile nature of the KarEbinR range, it can be utilised in just about any food preparation and serving location, making storage and preparation areas easy to clean and hygienic. Other areas such as toilets and washrooms would also benefit.

SPORT & LEISURE

KarEbinR is ideally suited to these intense work environments and will inspire customer confidence in your facilities. It is attractive, non-porous (for wet areas) and stylish.

HEALTHCARE/PHARMACEUTICAL

The inherent properties of PVC do not allow the growth of bacteria within the product. It looks stylish, is easy to clean and has high impact resistant making it an ideal product for any healthcare environment. Also, there are welded options for higher requirement areas such as operating theatres.

EDUCATION

Whether it is a university, college, academy, high school, primary or any type of learning facility, there are many different areas to include the KarEbinR products. Kitchen/food prep areas, toilets, washrooms, splashbacks (sink areas), changing rooms, shower rooms, ICT labs - it is robust and easy to clean with a variety of trim options to fully suit your needs.
